Vol. V, No. 7

July 1961

JUNE BASE PRICE \$3.87

Dairy farmers will receive a base price of \$3.87 for June 1961 deliveries of Grade A base milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order. The base price is based upon a butterfat test of 3.5 percent, and will be adjusted by a differential of 7.3 cents for each one tenth percent that tests vary above or below the 3.5 percent standard. This price is 11 cents more than the base price of June 1960.

JUNE EXCESS PRICE \$3.12

June 1961 deliveries of Grade A excess milk to handlers under the South Bend-LaPorte-Elkhart, Indiana, milk order will be paid for at the rate of \$3.12 per hundredweight for 3.5 percent milk and adjusted by the same differential of 7.3 cents as is used for base milk. These minimum prices are subject to a 4 cent per hundredweight marketing service deduction, together with the authorized hauling charge. For comparative purposes, a uniform price of \$3.76 per hundredweight was computed, which is 13 cents more than a year ago and 8 cents less than May 1961.

PRODUCER RECEIPTS

Daily production was down 3.6 percent from May and for the month was over a million pounds less. The daily herd average was only 23 pounds less than May and was 105 pounds more than in June of 1960. The Class I sales decreased much more than the production; consequently, we had only 63 percent Class I utilization of producer receipts as compared with 67 percent in May.

CLASS I SALES

On a daily basis, Class I sales dropped 7.66 percent from May. This level of sales will be slightly decreased in the following two months because of vacations and then will take a sharp upward trend in September, the beginning of the school year.

Statistical Summary As To The Volume of Whole Fluid
Milk Sold As Class I In The Different Size Containers

	May 1961 (Percent)	May 1960 (Percent)	May 1959 (Percent)
Gallon Containers	47.8	41.9	38.6
$\frac{1}{2}$ Gallon Containers	37.2	44.8	46.7
Quart Containers	8.5	8.6	10.2
Other (Pints, $\frac{1}{3}$ Qts., and $\frac{1}{2}$ Pints)	6.5	4.7	4.5

CLASS I PRICE

The Class I price for the July 1961 delivery period will be \$4.24 per hundredweight for 3.5 percent milk. This price was computed by adding \$1.10 per hundredweight to the average condenser pay price (\$3.12) and the plus two cent supply-demand adjustment. The supply-demand adjustment for the August 1961 delivery period will be a minus 4 cents.
